

## IWF LEADERSHIP FOUNDATION

Founded in 1990, the Leadership Foundation is the educational and charitable arm of the International Women's Forum, a global association of over 4,000 top women leaders from 21 countries and from all walks of life. The purpose of the Leadership Foundation is to channel the experience and expertise of IWF members to benefit women worldwide and to inform the public about the contribution women make to society. Our mission is to educate, inspire and empower the next generation of women leaders.

### Investing in the Future of Women Leaders...

The Leadership Foundation is a training and leadership development organisation that promotes women's leadership in all fields and disciplines, including the arts, business, academia, science, and world affairs. Key initiatives include the organisation's flagship effort, the Leadership Foundation Fellows Programme, as well as research and publications, leadership seminars, surveys, and privately commissioned studies that examine issues confronting women in leadership.

### Imparting Insights and Skills to the Next Generation...

The Leadership Foundation Fellows Programme is the only leadership training of its kind in the world...designed for women of ethnic, professional and geographic diversity. Aimed at high potential women who have the ability to excel at the peak levels of their organisations, the Fellows Programme sustains, grooms, and promotes tomorrow's women chief executive officers and principal leaders.

Each year, the Leadership Foundation selects approximately 15 women (increasing to 24 in 2007-2008) with exceptional potential for this unique opportunity. Women are chosen from diverse careers and ethnic backgrounds and represent a cross-section of geographical areas around the U.S. and the world. They are matched with members of the IWF who become mentors and who act as hands-on coaches and personal guides during the course of the year.
